At Mid Calder Camera Club we have 3 sections, **Beginner, Intermediate and Advanced.**

Our definition of a **Beginner** is anybody that has *very* recently taken up photography as a hobby. Someone who is unfamiliar with the basics of photography or the equipment, and has not taken any photography courses, and does not digitally edit their photographs.

An **Intermediate** Photographer is one that shows some knowledge of the basics of photography and their equipment (exposure, shutter speed, aperture, composition, and depth of field). Who may have taken a course, and may digitally edit their images to some degree.

An **Advanced** Photographer has a good understanding and regularly uses all of the above knowledge when taking photographs.
